

Printed Circuit Board Assembly Worker

Are you a technical talent and do you like to work with Printed Circuit Boards? Do you have electro technical skills, such as soldering? Do you have SMD component knowledge?

Then we are looking for you to join our PCB assemblage team

The Job Description

You will be responsible for the Touch-up of our Printed Circuit Boards (PCB). You will prepare our own designed PCBs and check they comply with the IPC quality norms. You will also be responsible for the quality of the finished PCBs.

Who Are We

Founded in 1965 in Leiderdorp, Netherlands, Praxis Automation Technology is a market leading manufacturer and supplier of automation, navigation and hybrid propulsion systems for sea going vessels. Our passion for shipping and technology is the drive of our company. We offer high-quality innovative systems that uses the very latest technologies. A key strength is being able to convert the wishes and needs of our clients into tailor-made quality systems. Our company is a trendsetter in sustainable innovations.

We supply our products to international shipyards, ship owners and system integrators and serve them via our selected global network of service and maintenance points. With over 80 employees in the Netherlands and a network of worldwide sales and service locations, Praxis has built a reputation as a solid partner. The high-quality knowledge and experience of our employees is the driving force that pushes us forward. We distinguish ourselves through the involvement of our employees. With an open mind to feedback and teamwork, our company has created an ideal environment to develop your engineering skills.

Your Responsibilities

- Manually positioning electronic components
- Soldering of PCBs by wave soldering
- Inspection of the assembled PCBs, both visual and Automatic Inspection AOI
- Perform rework and modifications
- Experience with operating Pick and Place machines is a plus
- Work under the ESD and IPC guidelines

Skills And Qualifications

- A completed education MBO electronics or equivalent
- Interested in working with PCBs
- Experience with manually SMD soldering
- Knowledge of IPC regulations and SMD techniques
- Good knowledge of the English language (both written and spoken)
- Lives in a radius of 20km from Leiderdorp
- Flexible attitude

What We Offer

- An international, informal and collegial working atmosphere.
- Enthusiastic colleagues who are always ready to help you
- Competitive salary
- Good secondary employment package
- Training and personal development opportunities
- Pension
- Travel allowance (starting from 10km with a maximum of 75km)
- Holiday allowance of 8% gross and 29 days of holiday
- Possible prospect of a permanent contract
