

Seeking a skilled Software Engineer to join our dynamic team specializing in automation and electric propulsion for sea-going vessels. Collaborate globally with partners to design, develop, and optimize software solutions, ensuring seamless integration and performance across diverse vessels worldwide. Contribute to cutting-edge advancements in maritime technology for sustainable and efficient operations.

## Software Engineer (Junior/Medior) C++ or C#

### Job description

As a Software Engineer at Praxis Automation you are responsible for developing and maintaining our wide product range of automation solutions and electric propulsion for the maritime industry. Your solutions will sail all over the world on one of our 6000 operational sea-going vessels. We require someone who likes a challenge and is able to solve difficult technical problems.

### Job specifics

- HBO or equivalent work level
- C# experience or C++ experience
- Windows based software or embedded programming
- Full time non-remote

### We offer

- An international, informal and collegial working atmosphere.
- A competitive salary
- A good salary and secondary employment package
- Training and personal development opportunities.

### Who we are

Located in Leiderdorp, The Netherlands, founded in 1965, Praxis Automation Technology is a manufacturer and supplier of automation, navigation and green propulsion systems for sea going vessels.

Our passion for shipping and technology is the engine of our company. We offer high-quality innovative systems that use the very latest technologies. A key strength is being able to convert the wishes and needs of our customers into a tailor-made quality system, our company is a trendsetter in sustainable innovations. We supply our products to international shipyards, ship owners and installers and serve them via our selected global network of service and maintenance points.

With more than 90 employees in the Netherland and a network of 42 worldwide sales and service locations Praxis has built up a reputation as a solid partner and we are market-leading in our field. The high-quality knowledge and experience of our employees is the driving force that pushes us forward to reach new achievements.

We distinguish ourselves through the involvement of our people. We take each other into account and we are always open to feedback. In short: a pleasant environment to work in!
